AUTOANTS RESEARCH · Q4 2026

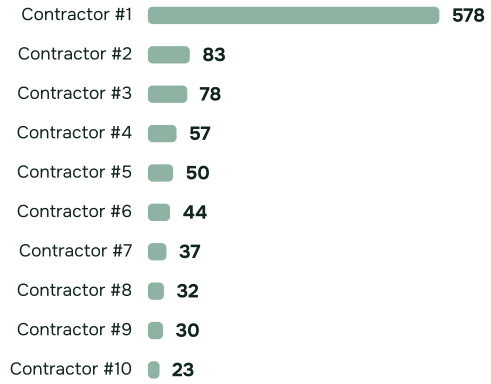

State of New Orleans HVAC

Public records only: city permits, our own check of local HVAC websites, what AI assistants say, and government data. No company is named except where an AI assistant named it.

Ten contractors pulled 50% of Orleans HVAC permits in the last 12 months

EXHIBIT 1 HVAC permits by contractor, Orleans Parish, 2025-10-01 to 2026-09-30

Permits are a proxy for installs and replacements, not repairs. Other contractors are shown by rank: the city records the licence holder, not the company.

22
A Book, Schedule or Request Service button is on the first phone screen, but no time is promised (it often opens a contact form).

6
A real booking or request control exists, but it sits below the first phone screen.

13
No booking or request control anywhere on the homepage.

When customers ask an AI assistant for the best HVAC company, these are the names it gives

How this was made

1. **Permits:** the City of New Orleans open permit data, last 12 full months. The city records the licence holder, not the company, so contractors are shown by rank only.
2. **Booking readiness:** our own check of local websites on a phone, counted, never named.
3. **AI answers:** the New Orleans AI Recommendation Index, as recorded on the date shown.
4. **Context:** the Census Bureau, the Bureau of Labor Statistics and NOAA, each dated under its figure.
