

Never miss another job.

Automated assistants for local businesses.

See what we'd build you
autoants.com

Free website preview, built before you pay.

MEET THE CREW

Assistants that work while you're busy.

The Callback

Miss a call and it texts them back in seconds, so the customer stays yours.

The Responder

A new lead gets an answer in seconds, even when your hands are full.

The Scheduler

Requests turn into booked appointments and jobs. You approve; it handles the back-and-forth.

The Reviewer

Every customer gets the same review ask, one tap from your phone.

Also on the crew: The Receptionist (an AI phone that says it's an AI), The Reminder, The Scout and The Promoter.

HOW IT WORKS

1

Reach out

Scan the code, visit autoants.com, or call or text.

2

Tell us about your business

A two-minute form: your name, number and business. You hear back from Lane, usually the same day.

3

See your free preview

Your new site, built with your real info and reviews, before you pay anything.

4

Pick your crew

A 15-minute call to choose the assistants you want. Once you say go, your site is live within 7 days or the \$500 setup fee comes back.
