AUTOANTS RESEARCH · Q4 2026

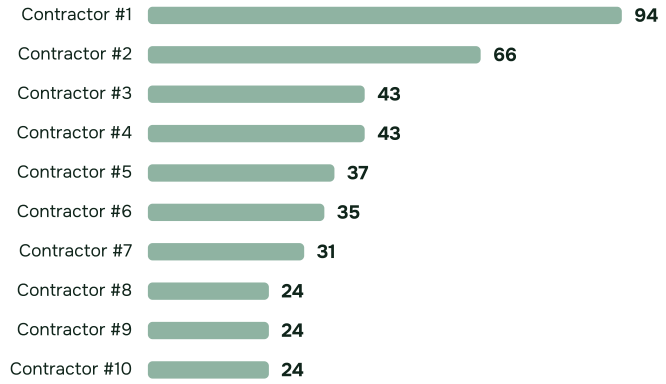

State of New Orleans Roofing

Public records only: city permits, our own check of local roofing websites, what AI assistants say, and government data. No company is named except where an AI assistant named it.

Ten contractors pulled 34% of Orleans roofing permits in the last 12 months

EXHIBIT 1 roofing permits by contractor, Orleans Parish, 2025-10-01 to 2026-09-30

Permits are a proxy for installs and replacements, not repairs. Other contractors are shown by rank: the city records the licence holder, not the company.

25
A Book, Schedule or Request Service button is on the first phone screen, but no time is promised (it often opens a contact form).

10
A real booking or request control exists, but it sits below the first phone screen.

12
No booking or request control anywhere on the homepage.

When customers ask an AI assistant for the best roofing company, these are the names it gives

How this was made

1. **Permits:** the City of New Orleans open permit data, last 12 full months. The city records the licence holder, not the company, so contractors are shown by rank only.
2. **Booking readiness:** our own check of local websites on a phone, counted, never named.
3. **AI answers:** the New Orleans AI Recommendation Index, as recorded on the date shown.
4. **Context:** the Census Bureau, the Bureau of Labor Statistics and NOAA, each dated under its figure.

WANT THIS FOR YOUR OWN SHOP?

We do the same homework on one business, add a 45-minute conversation, and turn it into a bound, printed report with its own report number: where jobs slip, the one fix worth doing first with its payback in your numbers, your market, and what's changing in your trade. $500, credited toward setup.
